Education

CMR Institute Of Technology

Bachelor of Technology in Computer Science & Engineering

Dec 2021 - May 2025

Hyderabad, Telangana

Projects

AI Content Generator | React.js, Node.js, Express, MongoDB, API Integration

- Developed a full-stack AI-powered blog generation platform using React.js, Node.js, Express.js, MongoDB, and OpenAI API, featuring JWT authentication, Stripe payment integration, credit management, content history.
- Engineered a scalable, mobile-first application with React Query, Tailwind CSS, and Three.js, implementing real-time credit tracking, secure session management, API integrations, WebGL fallbacks.

AI Developer Assistant | React.js, Firebase, Groq API, Tailwind CSS

- Developed an AI-powered developer assistant using React.js, Firebase, Groq API, and Tailwind CSS, featuring secure email/password and Google OAuth authentication, real-time chat persistence with Firestore.
- Engineered a production-ready application with Framer Motion animations, Groq model fallback logic, and platform compatibility, delivering seamless AI-assisted debugging and technical Q&A capabilities.

Personal Portfolio | Next.js, TypeScript, React.js

- Designed and developed a modern, responsive portfolio website using Next.js, TypeScript, Tailwind CSS, Framer Motion, and Three.js, featuring interactive 3D visualizations, smooth animations, glassmorphism UI.
- Implemented advanced frontend engineering practices including App Router, React Server Components, lazy loading, code splitting, SEO optimization, Web3Forms integration.

Expense Tracker | React.js, Node.js, Express, MongoDB

- Developed a full-stack expense management application using React.js, Node.js, Express.js, MongoDB, and JWT authentication, enabling secure user registration, category-based transaction tracking.
- Engineered a data-driven user experience with Redux Toolkit, React Query, Chart.js, Framer Motion, and React Three Fiber, delivering real-time financial analytics.

Certifications

Data Structures & Algorithms in JavaScript | GeeksforGeeks

- Completed Data Structures and Algorithms in JavaScript certification, strengthening problem-solving skills with arrays, linked lists, trees, graphs, and dynamic programming.

Full Stack Web Development and AI Tools | Udemy

- Completed Full Stack Web Development and AI Tools certification from Udemy, gaining hands-on experience in building end-to-end MERN applications, integrating Generative AI APIs, implementing authentication.

C++ SkillUp Certification | GeeksForGeeks

- Completed C++ SkillUp certification from GeeksforGeeks, strengthening proficiency in C++ programming, object-oriented programming concepts, STL, and problem-solving.

Python 101 for Data Science | IBM

- Completed IBM's Python 101 for Data Science certification, gaining foundational knowledge in Python programming, data analysis, data structures, functions, and libraries such as NumPy and Pandas for data-driven problem solving.

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Technologies: React.js, Next.js(Novice), Node.js, Express, Tailwind CSS

Databases: MongoDB, Firebase, MySQL

Tools: Claude Code, Git, Github, Postman, Render, Vercel
